NORTH CAROLINA'S RESOURCES.

By GOVERNOR R. B. GLENN.

Industrially, North Carolina has evolved to that position of prosperity and output where the only limits upon continued expansion are those which result from basic limitations.

That is to say, that whereas the problem of former years was to secure the investment of the capital of the State in active State industrial enterprise, the time has come when the lesson has been so well learned that the question has shifted to the procurement of the necessary capital to carry out the plans of an industrially awakened citizenry.

In industrial development, the mills that manufacture fabrice still lead in importance. The State has taken first place among all those in the Union in the number of textile manufactories and is second to Massachusetts in point of value of production.

The growth of this industry is typical of that of the State, is in a large sense the index of its prosperity, for what has been done in cotton milling, while done in larger figures, has been equalled if not exceeded in other numerous lines of industry. The figures as compiled by the North Carolina Department of Labor and Printing and the United States Census Bureau, given by years, show the increase in textile institutions to have been marvelous.

Year.	No. Mills.	Looms.	Spindles.	No. Employed.	Capital.
1890.....	49	3,054	149,898	8,515	$10,775,134
1900.....	122	26,689	1,297,771	38,637	33,011,516
1905.....	287	45,663	2,267,625	44,222	57,043,418
1906.....	318	52,747	2,573,130	52,921	60,861,860

In 1906 the 318 mills reporting (a number of mills owned by the same company in several instances having been reported as one) showed a capital of $60,861,860, the employment of 52,747 looms, 2,573,130 spindles, 5,237 knitting machines and 115,671 horse power.

In the presence of the fact that a number of mills fail to report, the increase shown in looms and spindles indicates that the value of the mills is now in excess of $65,000,000, with an annual value in production of upwards of $75,000,000.

In 1880 the number of bales consumed in North Carolina cotton mills was under 25,000, or at that time about one-seventh of the State's production.

In 1903 the number of bales consumed had risen to 550,000, having practically kept pace with the increased acreage and production of cotton within the State.

In 1906, with a total crop for the State of 600,000 bales, the mills of the State manufactured more than was raised.

What is thus significantly true of cotton is also illustrated in the growing of tobacco, the chief money crop of the State. North Carolina will this year produce in tobacco upwards of ninety million pounds, to be sold at an average price of possibly ten cents, or, say, for approximately $9,000,000.

The wide economy latent in this record is, perhaps, better shown by the relative value of the agricultural and manufactured products of the State for various illustrative periods:

In 1890, for instance, the value of the agricultural products was $50,000,000, and of the manufactured products, $40,000,000.

By 1900 the value of the manufactured product had grown to $95,000,000, as against an increase in the agricultural product to $89,000,000.

But in 1905, showing an increase in manufactured products of upwards of five million to an amount in excess of $100,000,000, the value of the agricultural products had more than kept pace and amounted to $95,000,000.

In 1906, with a further estimated increase of $6,000,000 in manufactured values, the agricultural products have climbed well above $100,000,000 in value.

Significant in the general industrial and manufacturing situation is the practical birth within the past few years of the furniture industry, the figures illustrative of which are truly phenomenal.

In 1890 there were four factories, with 123 employes, and a capital of $41,000.

In 1900 there were forty-four factories, employing 1,759 hands, representing a capital of $1,023,374.

In 1905 there were 105 factories, employing 5,164 people and capitalized at $4,621,994.

In 1906 there were more than 124 factories, with a capital in excess of $5,000,000, employing over six thousand people and producing an output of $8,500,000.

While, companion of cotton milling, the knitting mill industry, represented a few years ago by an isolated small factory or so, now shows fifty mills in successful operation, employing 15,000 spindles, 5,237 machines and 4,200 employes, representing a capital invested of $2,400,000.

INDUSTRIAL NORTH CAROLINA.

By T. M. ROBERTSON, United States Department of Commerce and Labor.

The best evidence of the industrial possibilities of North Carolina is found in the progress made during the past few years. According to the reports of the twelfth census there was more capital employed in one single industry in 1900 than there was in all the industries in the State in 1890. Ten counties now have more money invested in manufacturing enterprises than the entire State had ten years ago. The value of products in the two industries of cotton manufacturing and lumber is now greater than that of all the manufactured products of the State in 1890. From 1890 to 1900 the capital invested in manufacturing increased nearly 134 per cent. and the value of manufactured products increased 135 per cent. The increase was much greater during the past seven than during the preceding ten years, as is shown by the figures for 1905.

COTTON MANUFACTURING.

It will be interesting to note somewhat in detail a few of those industries in which the most notable progress has been made. First in importance on account of its magnitude and also on account of the opportunity it offers for profitable investment is that of cotton manufacturing. In 1890 there were ninety-one cotton mills in the State with a capital of about three-quarter millions of dollars, while in 1905 there were 212 mills with a capital of $57,413,418. The value of the cotton mill products in 1890 was $9,563,443, and in 1905 it was $47,254,054. These mills in 1905 employed more than 36,000 people and paid them more than $7,500,000 in wages. In 1900 the cotton mills consumed cotton to the value of more than $15,000,000, or about 400,000 bales, which was practically all the cotton grown in the State that year. In 1905 the 212 cotton mills consumed more than 500,000 bales of cotton worth nearly $29,000,000.

THE TANNING INDUSTRY.

The tanning industry is yet a small one, but the success attending it wherever modern methods have been adopted warrants the statement that it is capable of profitable enlargement to great proportions. Up to within a very few years tanning was conducted only under the primitive methods in vogue fifty years ago. In 1890 the invested capital in the industry amounted to only a little over $100,000 and the products valued at but $190,887. Within the last fifteen years an attempt has been made to conduct the business on modern plans, and so successful has it proven that in 1905 the capital invested was $2,568,965, and the value of the products was $2,662,174. This successful beginning proves beyond doubt that here is a field for profitable investment.

MANUFACTURING TOBACCO.

The State has long been famous for its chewing and smoking tobacco. Some of the largest tobacco factories in the world are located here. In 1890 the capital invested in this industry was $4,783,491. Since that time the capital has more than doubled and the value of products in 1900 was nearly three times as much as in 1890. In 1907 the capital invested is reported by the North Carolina Labor Department at $26,000,000, and the total value of the products of the factories is estimated by the same source to be $28,087,969. Great fortunes have been made in the business and opportunity is still open for the profitable investment of large capital in the business.

FURNITURE FACTORIES.

Perhaps the most remarkable showing made in any industry is in that of furniture manufacturing. In 1890 there were six little factories with a capital of $126,350, and the total value of their products was $159,000. In 1905 there were 105 factories with a capital of $4,621,994, and their products were valued at $1,457,305, an increase of nearly four thousand fold in fifteen years! While the industry is yet comparatively small, yet this remarkable growth proves conclusively that success is assured to the enterprising investor who embarks in the business.

* * * * *

North Carolina is an agricultural State, and as such offers advantages of a superior character. But the facts and figures already given and those that are to follow suggest that perhaps her greatest possibilities are in manufacturing. The streams can supply energy conservatively estimated at 2,750,000 horse power. Of this tremendous supply of energy something like 600,000 horse power is already available and with recent progress in the electrical transmission of power it is not extravagant to assert that a very large proportion of this tremendous force can be economically utilized for industrial purposes. Development companies are now offering power to all that region from Greensboro to Charlotte. The growth of railroad mileage in

recent years and the cheapness attending railroad construction in the State, settle the question of accessibility to the fields of raw material. While the cotton mills of the State now spin every pound of cotton grown in the State, and more too, the proximity of the great cotton growing States further South practically places their cotton at doors of our mills. The great variety and abundance of the finest hard woods in the world offer unusual inducements to those who wish to engage in the manufacture of furniture, carriages and wagons, hard wood material for builders, agricultural wooden supplies and all kinds of small wooden wares.

The cheapness of constructing buildings is of itself a tremendous item of saving in capital outlay—with an abundance of the very best building woods at the door of every community and an unlimited supply of brick clay everywhere, together with the fact that the mild climate permits far less expensive buildings both for factories and dwellings than are required further north, reduces the necessary building cost to the minimum. The fact that there are no large cities to cause great land values, and the further fact that a majority of the most desirable manufacturing sites are situated in small railroad villages reduce the cost of land for manufacturing purposes to almost nothing.

The productive power of capital is one of the first things to determine in the selection of a locality for manufacturing purposes. To show what capital can accomplish in North Carolina in two of the most promising industries the following facts are submitted:

Each $100 invested in the manufacture of cotton goods in the United States in 1900 yielded a product valued at a little more than $72.00. In Rhode Island it yielded $64.00, in Massachusetts it yielded slightly less than $71.00, while in North Carolina it yielded $86.00. That is to say, that in North Carolina capital invested in this industry afforded a basis for profit from 15 to 22 per cent. greater than it did in the other States mentioned. Or to express it in a more practical way, $100 invested in this industry in North Carolina is equivalent to an investment of $121 in Massachusetts and to $131 in Rhode Island. These figures bear only upon the relation of capital to product, and when cheapness of building, the earning power of a dollar when invested in labor, and the items of taxes and general expenses are considered they become even more significant.

Similar comparisons with Michigan for the furniture industry afford even a greater contrast in favor of North Carolina. Each $100 invested in the manufacture of furniture in the State of Michigan in 1900 yielded a product valued at $105, while in North Carolina it yielded $151—a difference of 46 per cent. in favor of North Carolina. Or to use the other method of comparison, $100 invested in this industry in North Carolina was equivalent to an investment of nearly $144 in Michigan. In Michigan nearly 24 per cent. of the invested capital for this industry was required to provide the necessary land and buildings, while in North Carolina only 17½ per cent. of capital was thus required.

The above comparisons for cotton goods have been made with Massachusetts because that State is the great center of this industry in this country and because there has been made its greatest progress. Rhode Island was also selected because the conditions there are very similar to those in Massachusetts and also because the volume of business in the latter State is so nearly the same as that for North Carolina. For furniture, Michigan was selected because it is recognized as perhaps the most progressive State in the Union in that industry. These comparisons with States in which the greatest progress has been made and where the highest perfection has been reached give particular emphasis to the wonderful opportunities offered here.

Labor here is contented and reliable. It is composed entirely of people born in the State, and there is therefore not that disposition to seek changes which is so common among foreigners. There are no large cities with their attendant vices and temptations to dissipation. The working people are intelligent, moral and industrious, thus combining all the elements of the most desirable employe. They are not easily shaken from their naturally conservative ways, and strikes are therefore of rare occurrence and short duration.

Taxation is exceedingly light. While wealth has increased at a rapid rate during the past ten years it has been necessary to add but 17 per cent. to the assessed valuation of real estate and the rate of taxation has not been increased at all. Labor and capitol have always been upon such amiable terms that the law-making power has found it necessary to do but little in the way of regulating labor questions, and this little has been along conservative lines.

All in all, there is no more inviting field for manufacturers than in this State, and it is doubtful if so many superior advantages and desirable considerations are to be found elsewhere. Cheap power in practically unlimited volume, cheap raw material in ample quantity, quality and variety, reliable labor, cheap living, wholesome laws, an ideal climate, and a hospitable welcome await the enterprising stranger who comes among us.

STATE PROHIBITION LAW.

(To be voted on May 26, 1908.)

A BILL TO BE ENTITLED AN ACT TO PROHIBIT THE MANUFACTURE AND SALE OF INTOXICATING LIQUORS IN NORTH CAROLINA.

The General Assembly of North Carolina do enact:

Section 1. That it shall be unlawful for any person or persons, firm or corporation to manufacture or in any manner make, or sell, or otherwise dispose of, for gain any spirituous, vinous, fermented or malt liquors or intoxicating bitters within the State of North Carolina: Provided, this act shall not be construed to forbid the sale of such spirituous, vinous, fermented or malt liquors or intoxicating bitters by a legalized medical depository or by any licensed and registered pharmacist, for sickness, upon the written prescription of a regularly licensed and actively practicing physician or surgeon having the person for whom such prescription is made under his charge, which said prescription shall specify the amount of spirits required: Provided further, that wines and ciders may be manufactured or made from grapes, berries or fruits and wine sold at the place of manufacture only, and only in sealed or crated packages containing not less than two and a half gallons per package; but no wine when sold shall be drunk upon the premises where sold, nor shall the package containing the same be opened on said premises: And provided further, that nothing herein contained shall be construed to prevent the sale of cider, in any quantity, by the manufacturer from fruits grown on his lands within the State of North Carolina.

Sec. 2. That all liquors or mixtures thereof, by whatever name called, that will produce intoxication, shall be construed and held to be intoxicating liquors within the meaning of this act: Provided, that medicinal preparations manufactured in accordance with formulas prescribed by the United States Pharmacopoea and National Formulary which contain no more alcohol than is necessary to extract the medicinal properties of the drugs contained in such preparations, and no more alcohol than is necessary to hold the medicinal agents in solution, and which are manufactured and sold as medicines and not as beverages, shall not be held or construed to be or to come within the meaning or provisions of this act.

Sec. 3. That any physician or surgeon who shall make any prescription (except in case of sickness) for the purpose of aiding or abetting any person or persons who are not bona fide under his charge to purchase any intoxicating liquors contrary to the provisions of this act, and any licensed and registered pharmacist who shall sell or otherwise dispose of, for gain, any spirituous, vinous, fermented or malt liquors or intoxicating bitters without the written prescription of a legally qualified physician or surgeon, or who shall duplicate the prescription of a physician or surgeon for intoxicating liquors for any person or persons not bona fide under such physician's or surgeon's charge, without the written direction of the physician or surgeon who gave the same, shall be guilty of a misdemeanor and upon conviction shall be fined or imprisoned, or both, in the discretion of the court, for each and every offense; and all licensed and registered pharmacists selling intoxicating liquors by prescription as aforesaid shall keep a record thereof, which shall bear the true dates of the sale, the names of all persons to whom sales were made, the names of the physicians or surgeons

upon whose prescriptions the sales were made, which said record shall be subject at all times to the inspection of the Solicitor of the district, the Sheriff and other peace officers of the county, the Mayor and police officers of the city or town in which said licensed and registered pharmacist's business is located, and all other persons; and any licensed and registered pharmacist failing to keep the record aforesaid, or refusing to permit the examination of such record by the officers named or other persons, shall be guilty of a misdemeanor, and upon conviction be fined or imprisoned, or both, in the discretion of the court.

Sec. 4. The place where delivery of any intoxicating liquors is made in the State of North Carolina shall be construed and held to be the place of sale thereof, and any station or other place within said State to which any person shall ship or convey any intoxicating liquors for the purpose of delivering or carrying the same to a purchaser shall be construed to be the place of sale: Provided, that nothing in this act shall be construed to prevent the delivery of any intoxicating liquor to any licensed and registered pharmacists in sufficient quantities for medical purposes only.

Sec. 5. Nothing in this act shall be construed as making it unlawful to sell to any minister of religion or other officer of a church wine to be used for religious or sacramental purposes.

Sec. 6. That nothing in this act shall be construed to prevent the County Commissioners or governing body of any city or town from prohibiting the sale of spirituous, vinous, fermented or malt liquors or intoxicating bitters by any licensed and registered pharmacists in their respective counties, cities or towns: Provided further, that said County Commissioners or governing body of any city or town may levy a special privilege tax upon any licensed pharmacist licensed to sell spirituous, vinous or malt liquors.

Sec. 7. That all laws or parts of laws in conflict with this act be and the same are hereby, to the exent of such conflict, repealed: Provided, however, that nothing in this act shall operate to repeal any of the local or special acts of the General Assembly of North Carolina prohibiting the manufacture or sale or other disposition of any of the liquors mentioned in this act; but all such acts shall continue in full force and effect and in concurrence herewith; and indictment or prosecution may be had either under this act or any special or local act relating to the same subject: Provided, that if the provisions of sections one to nine (inclusive) of this act shall fail to go into effect on the first day of January, 1909, because of the failure of a majority of the votes cast in the election hereinafter provided for to be "Against the Manufacture and Sale of Intoxicating Liquors," then this act shall not be construed as a repeal of any laws under which prohibition or a dispensary has been established, nor shall it have the effect of restoring license where prohibition or a dispensary now obtains.

Sec. 8. Any person violating any of the provisions of this act shall be guilty of a misdemeanor.

Sec. 9. That the foregoing provisions of this act shall go into effect on the first day of January, in the year of our Lord one thousand nine hundred and nine, if a majority of the votes cast at the election hereinafter provided for shall be "Against the Manufacture and Sale of Intoxicating Liquors."

North Carolina Courts.

THE SUPREME COURT OF NORTH CAROLINA.

Walter Clark, of Wake, Chief Justice.
Platt D. Walker, of Mecklenburg, Associate Justice.
Henry G. Connor, of Wilson, Associate Justice.
William A. Hoke, of Lincoln, Associate Justice.
George H. Brown, Jr., of Beaufort, Associate Justice.
Thomas S. Kenan, of Raleigh, Clerk.
J. L. Seawell, of Raleigh, Office Clerk.
Robert H. Bradley, of Raleigh, Marshal and Librarian.
Robert C. Strong, of Raleigh, Reporter.

The Supreme Court meets on the first Monday of February and the fourth Monday of August of each year. The call of appeals from the Judicial Districts begins on Tuesday of each week during the term.

Applicants for License to Practice Law.

Each applicant must have attained the age of twenty-one years, and must have studied

Ewell's Essentials, 3 volumes;
Clark on Corporations;
Schouler on Executors;
Bispham's Equity;
Clark's Code of Civil Procedure;
Volume I Code of North Carolina;
Constitution of North Carolina;
Constitution of the United States;
Creasy's English Constitution;
Sharswood's Legal Ethics;
Sheppard's Constitutional Text Book;
Cooley's Principles of Constitutional Law.

Each applicant must have read law two years at least.

Examinations for license to practice law are held on the first Monday in February and the fourth Monday in August of each year. The examinations are in writing.

Conditions Precedent to Examination: Before being allowed to stand an examination each applicant must comply with the following conditions:

I. He must be at the time twenty-one years of age, or will arrive at that age before the time for the next examination.

II. He must file with the Clerk of the Court a certificate of good moral character signed by two attorneys who practice in that Court. An applicant from another State may have such certificate signed by any State officer of the State from which he comes.

III. He must deposit with the Clerk twenty-one dollars and fifty cents. Of this sum one dollar and fifty cents shall be retained by the Clerk. If the applicant obtains license the remaining twenty dollars shall be paid by the Clerk to the librarian for use of the Supreme Court library. If the applicant fails on examination the twenty dollars shall be repaid him.

Democratic State Platform---1906

The Democracy of North Carolina in convention assembled, renews its allegiance to the principles of constitutional government, through laws enacted and executed in the interest of the whole people, without favor to individual or class; and it pledges itself to continue the just, wise and economical administration of public affairs which have obtained in State and county since its return to power in 1899.

We congratulate the people of the State that, under Democratic auspices, there has been established throughout the borders of the State a reign of law and liberty, peace and progress. That our people are no longer employed in guarding their homes and protecting their lives, liberty and property, as they were under Republican rule; but safe in the protection of law, and enjoying the freedom which comes from security, are directing their energies to peaceful pursuits of honest industry.

We endorse the wise, patriotic and able administration of our States affairs by Governor Robert B. Glenn and the other State officials, and we point with pride to the record of our Senators and Democratic Representatives in Congress, and endorse the same.

We again congratulate the people of North Carolina upon the successful operation of the Constitutional Amendment regulating the elective franchise. The adoption of this measure has permanently solved the race problem which had so long agitated the public mind, and was a menace to peace and good government.

In its operation the assurances made by the Democratic party to the people, that no white man would be disfranchised thereby have been fully verified, and the prediction of the Republican party, to the contrary, proven false.

After a test of five years the wisdom of the Amendment is recognized and acquiesced in by all political parties, and is accepted as a solution of a vexed question.

We congratulate the people upon the beneficent effect of the temperance legislation enacted by the Democratic party, and approve and endorse the principles enunciated in the Watts bill and the Ward bill regulating the manufacture and sale of liquor.

We reaffirm our constitutional declarations that "religion, morality, and knowledge being necessary to good government and the happiness of mankind, schools and means of education shall be forever encouraged," and that the people have the right to the privilege of education, and that it is the duty of the State to guard and maintain that right, and we express hearty approval of the great results accomplished through educational work during the past six years of Democratic rule—at the great improvement made during that time in our educational conditions, and we promise a continuance of a four months' school term for all the children of the State.

The Democratic party established the system of pensioning Confederate soldiers and opened the Soldiers' Home for the care of the veterans who responded to the call of the State in the War Between the States. Every dollar given them was appropriated or forced by the Democratic legislation or Democratic public sentiment. We pledge the party to a fuller discharge of a debt that can never be fully paid to these aging heroes who offered their lives as a sacrifice upon the altar of their country.

We point with pride to the record of the Democratic party in its care of the unfortunate classes of our State and promise to continue to enlarge our charitable institutions until all the indigent insane are cared for at the expense of the State.

REGULATION OF PUBLIC SERVICE CORPORATIONS.

The powers of the Corporation Commission should be so enlarged as to give it

full and adequate power to regulate all public service corporations within the State and subject to its jurisdiction. Passenger and freight rates in North Carolina are too high and should be materially and substantially reduced, as should also telephone rates and rentals, and we demand such action by the Legislature and Corporation Commission as will accomplish such reduction.

We are opposed to granting charters to corporations in perpetuity.

The discrimination of railroads against North Carolina cities and towns, and in favor of other points having no greater natural advantages, is a grave injustice to the people of this State, and should be corrected by such means as are available within the limitations set by the Constitution of the United States. The interference by public service corporations in political matters should be called so sharply to the attention of the people that it will be odious, and the efficiency of such corporations as political agencies should thus be destroyed.

The law against issuing free passes should be so amended as to make the party who illegally receives them equally guilty with the corporation issuing them.

The failure of connecting lines of railways to make connection as scheduled is a source of much inconvenience, expense and annoyance to the traveling public, and we demand such additional legislation as may be necessary to enforce that provision of our statute which requires connecting lines to make as close connection as is practicable for the convenience of the traveling public.

FOREST RESERVE AND INLAND WATERWAY.

We favor the Appalachian Forest Reserve, and the construction of the inland water-way from Norfolk, Virginia, to Beaufort Inlet, North Carolina. While both of these projects involve great benefits to the State, they are also of national importance. The one preserves our mountain forests and conserves our water supply, promotes the public health, maintains our water-power and aids agriculture. The latter will open up a free outlet north and south for the water-borne trade of Eastern North Carolina, equalize traffic rates, and promote the prosperity of our people. Its construction will also greatly increase the coastwise trade between the South Atlantic and North Atlantic ports.

We urge our Senators and Representatives to continue their efforts to secure legislation for the establishment of the one and the construction of the other.

We reaffirm our adherence to the time-honored principle of Democracy of "equal rights to all and special privileges to none," and we condemn subsidies, gratuities, bonuses, trusts and monopolies.

For nearly ten years the Republican party has been in absolute control of all departments of national government, with power to change unjust conditions and to rectify evils. Yet, during that time colossal combinations of capital have dominated the people, and illegal perversions of corporate law have stifled competition and unfairly limited the opportunity of the individual citizen. Wealth thereby illegally obtained has been unsparingly used to control legislation and corrupt elections. No honest effort has been made, or is being made, by Republican legislation to cure or eradicate these evils.

We denounce the hypocrisy of the Republican party, which, while pretending to legislate against these conditions, deals only with the symptoms and not with the disease. The unfair, tyrannical features of the so-called "protective tariff" have made these things possible, and no permanent relief can be secured until its obnoxious features are removed. To remedy this evil we demand a thorough revision of present tariff laws.

The growth of the trusts and other inordinate and dangerous combinations of capital, the tremendous and rapidly increasing absorption and centralization of the wealth of the country in the hands of a chosen few, all due to premeditated and systematic legislation in behalf of special interests by the Republican party, demand a change in the policies imposed upon the country by that party and make the passage of restrictive laws an imperative necessity.

We denounce the appalling system of corruption heretofore practiced by the great insurance companies, whereby money intrusted to them for the benefit of widows and orphans has been diverted to the enrichment of favored individuals and to the campaign fund of the Republican party.

We denounce the present iniquitous, unjust and trust-creating protective tariff imposed upon the people by the Republican party and demand its immediate revision, to the end that all unjust burdens shall be removed, and especially those upon the necessaries of life and those that enable the trusts to extort from the people unreasonable profits and to sell their products to consumers at home at greater prices than are charged for the same goods to the foreign consumer.

Resolutions.

At the Democratic State Convention held in Greensboro on July 3, 1906, the following resolutions were adopted:

ENDORSEMENT OF BRYAN AND AYCOCK.

The Democracy of North Carolina, the first in America to support William J. Bryan for the Presidency of the United States, is gratified to see the Democracy of every section of the Republic turning to him as the logical candidate for President in 1908.

The spontaneous call for his leadership is the result of a universal desire to correct the giant evils in our country which he long ago foresaw, and which has heretofore de-

feated the will of the American people. Honored the world over as America's first citizen, he will be hailed upon his return as the one man to restore the government to the foundation of equality and justice upon which it was established by our fathers. The Democrats of North Carolina in convention assembled endorse the candidacy of William J. Bryan for President in 1908, and recognizing that in choosing his running-mate the Democracy of this country should select one of her wisest and broadest statesmen, the North Carolina Democracy presents to the Democracy of the Republic as a fit candidate for Vice-President Hon. Charles B. Aycock, ex-Governor of this State.

ELECTION OF UNITED STATES SENATORS AND JUDGES BY THE PEOPLE—INCOME TAX.

We favor such amendments to the Constitution of the United States as will provide for the election of district and circuit judges of the United States and United States Senators by a direct vote of the people, and a graduated income tax.

Republican State Platform---1906

(Adopted at Greensboro, July 10, 1906.)

The Republican party of North Carolina in convention assembled at Greensboro, N. C., July 10, 1906, congratulates all the people of the State upon prevailing conditions, as the unquestioned off-shoots of Republican policies enforced since 1897, resolve and declare the following to be a summary of their beliefs upon the more vital questions of present interest and of the action they will take if given power in the State:

1. We claim for the administration of President Roosevelt that it has satisfied every reasonable demand of the patriot, the reformer and the worker in every field of human endeavor; that it has established the currency upon a basis not to be shaken; that it has vastly extended our foreign commerce, and so added largely to the nation's wealth; that it has kept the peace at home and promoted it abroad; that it has expended the national revenue wisely and with absolute honesty; that it has laid bare and punished with iron hand every species of official or corporate corruption brought to light by vigilant agents of its own choosing; that it has hearkened to the voice of the oppressed in all lands and given sympathy when forbidden by law to give more; that it has aimed with true and constant purpose to reflect in its every act the highest and finest aspirations of the American people, northern and southern, eastern and western.

2. We state with regret the acknowledged fact that the laws of our own State have not been enforced by the Democratic administrators in State and county affairs; the legislation upon the subject of temperance, so dear to a large part of our best people, is confessedly a dead letter as relates to its enforcement by State officials —Republican officials of internal revenue bearing the whole burden of commanding for it popular obedience.

Yet the amazing spectacle is presented of a party which has kept the promise to the ear and broken it to the hope now masquerading as prohibitionists in such sections of the State as they deem ripe for that experiment in law-making.

The Republican party insists that every county and every town should be allowed to determine for itself by vote the question of whether, and if so, how whiskey shall be sold in its limits, as well as who shall hold its offices, and that they shall, none of them, be appointed by the Legislature or justices of the peace or any other authority except the people.

3. We refute in the proper spirit of just indignation the frequent threat of danger to the State from our coming into power, made by Democratic speakers and newspapers. The merest novice in political conditions must know that victory for us can come from the addition of one constituency alone—the men of the Farmers' Alliance and the People's party—to whom alone or in conjunction with Republicans the State owes the great upward movement in railroad regulation, in female education, in common school education, in the preserving, care and encouragement of the University, A. and M. College and other State institutions, threatened then as now with ghost stories of their destruction; and we pledge ourselves to continue and perfect the common school system, begun by the Republicans, until a good English education is in the reach of every child.

We shall advocate one or more reformatories for youthful criminals, and pledge the people that, given power, no insane man or woman, white or black, shall lack the State's care, be the cost what it may.

4. We congratulate the people of the State upon the removal of the Atlantic and North Carolina Railroad from the sphere of active politics, but denounce the refusal of State Democratic officials to let the light of publicity shine upon the evidence taken behind closed doors which led to the lease of that piece of State property.

Graft was admitted, but never suffered punishment, thus showing in marked contrast a national Republican, as against a State Democratic administration; and we further denounce the method of the Democratic party in appointing an investigating committee of strictly partisan Democrats.

5. If Democratic testimony is to be taken, the present Corporation Commission exists chiefly for the purpose of drawing

salaries. We pledge ourselves to make it efficient. At present it is a laughing-stock of well-informed people, but no less a burden upon the tax-payer.

6. The Democratic party for years has vaunted its friendship for the Confederate soldier, while leaving him, in many cases, an object of charity. The Republicans by their votes in the General Assembly have ever shown their friendship for this most honored class of our countrymen, now daily lessening in number.

We advocate doubling the pittance now received by these veterans, and if we secure a legislative majority shall vote as we promise.

7. We favor rigid restriction of the servile immigration now coming to this country from Europe, and shall aid by every means in our power to uphold the dignity and manhood of native American citizenship.

We rejoice that sectionalism is a thing of the past.

8. We favor the establishment of the Appalachian Park, and pledge any Republican Congressman elected from this State to be its friend; but its establishment must be the work of Republican statesmanship and those its friends miscount who look to see it come from discredited Democratic bunglers in administration.

9. We charge that the Democratic State administration has been costly beyond precedent without being efficient; that the dockets of the courts in very many counties remain clogged, though judges and solicitors have been increased in number and in pay.

We are unalterably opposed to frauds upon the suffrage, and we believe that the great amount of crime and lawlessness that prevail and seem on the increase in our State, including lynchings, are due to the licentious tongues of Democratic orators and others who teach and advise that it is right to commit crime and fraud for the Democratic party. Honest men can see no difference between stealing a ballot and a horse—betwen a false return of the result of an election and a false oath in the courthouse and a false verdict in the jury-box.

That it is the sense of this convention that town and city poll-tax in North Carolina should not exceed one dollar.

And, whereas, some dissensions have arisen among Republicans on account of contests over appointments to Federal offices, which, with charges and countercharges, have been given undue prominence by the Democratic press; and whereas, the Democratic party has been enabled to retain its hold upon the State government by appeals to race prejudice, references to the disorders and confusion resulting from the war and "the days of '68," as well as the manifold repetition of the statement that all Republicans are office-seekers:

It is therefore now Resolved: That the State Executive Committee of the Republican party be and it is hereby instructed to assemble, and each and every member thereof, in Greensboro, N. C., on the first day of September, 1906, and on the first days of March and September in each and every year hereafter, and shall then and there before adjournment consider applications for appointment to all Federal offices in North Carolina the terms of which shall expire in the next six months, and to recommend to the appointing power in each instance a suitable person for each position, except in such districts as are represented by a Republican Congressman. That no application shall be considered unless the applicant shall state in his application that he will submit to the action and recommendation of the committee without further contest.

Resolved, That the executive committee in making recommendations for appointment to Federal positions shall observe well that the applicant has the support of his local party friends, in addition to being well qualified for the position.

Indebtedness and Resources of North Carolina.

(From Commercial and Financial Chronicle.)

Admitted as a State .....One of Original Thirteen.
Total area of State (square miles)..... 52,250
State Capital .....Raleigh
Governor (term expires January, 1909) .....Robert B. Glenn
Secretary of State (term expires January, 1909) .....J. B. Grimes
Treasurer (term expires January 1, 1909) .....B. R. Lacy

LEGISLATURE meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions, but if sessions are continued longer than 60 days members "shall serve without compensation."

STATE DEBT.—The old debt, excepting such as is not recognized, has mostly been funded under the funding laws of 1879, the time prescribed for the exchange having been extended to January 1, 1909. These laws provided for the issue of (1) consolidated 4 per cent. bonds due in 1910 to fund old ante-war bonds at 40 per cent. of face value, "new" railroad bonds recognized as valid at 25 per cent. and bonds of 1866 and 1868 at 15 per cent., nothing being given for overdue coupons; and (2) for new consolidated 6 per cent. bonds due in 1919, for which the North Carolina R. R. construction bonds were made exchangeable at par, holders of construction bonds abating $240 of overdue interest on each $1,000 bond. The new bonds, both 4s and 6s, carry tax-receivable coupons, and are exempt from "all State, county or corporate taxation or assessment, direct or indirect, general or special.' The 4s of 1903 are also exempt from taxation.

In compliance with a decision of the United States Supreme Court handed down February 1, 1904, North Carolina on April 1, 1905, paid to the State of South Dakota $27,400, representing the judgment obtained by the latter State on $10,000 bonds (donated to the State of South Dakota for the express purpose of bringing suit, an individual not being able to sue a State) issued by North Carolina and secured by 100 shares of stock of the North Carolina R. R. Co. and the holders of which had refused to accept the provisions of the funding law of 1879. See V. 78. p.594; V. 79, p. 1728; V. 80, p. 1382; and also editorials on the subject, V. 78, p. 1248; V. 80, p. 1332. The State also settled with the remaining holders of this particular class of unfunded bonds, issuing the $250,000 bonds of 1905 mentioned below to provide means of payment.

A committee of bondholders is endeavoring to enforce payment of the special tax bonds of this State. V. 85,, p. 1100.

An amendment to the State Constitution passed by the Legislature in 1879 and ratified by popular vote in 1880 forbids the General Assembly to pay or recognize as

valid the following bonds: Special tax bonds, $11,366,000; bonds to Chatham R. R., 1868, $1,030,000, and to Williamston & Tarboro R. R., $150,000; penitentiary bonds of 1868, $44,000, "unless the proposing to pay the same shall have first been submitted to the people and by them ratified by the vote of a majority of all the qualified voters of the State at a regular election held for the purpose." The special tax bonds were in three classes, class 1 bearing the coupon of April, 1869, and since; class 2 bearing the coupon of October, 1869; class 3 bearing the coupon of April, 1870.

The recognized debt which had been adjusted up to December 1st, 1906, stood as follows:

LOANS— NAME AND PURPOSE—	Interest. P.	Ct.	Payable.	Principal. When Due.	Outstanding.
Construction bonds c	6		A & O	April 1, 1919.....	$2,720,000
Renewal bonds c	4		J & J	July 1, 1910	3,411,450
Prison debt bond, 1899.....	4		J & J	January 1, 1909.....	110,000
Prison farm bonds, 1899	4		J & J	January 1, 1909	*60,000
Bonds of 1903.....	4		J & J	January 1, 1913	300,000
South Dakota judgment and Schafer Bonds, 1905 c	4		J & J	January 1, 1913	250,000

*Interest paid from earnings of State Prison.

PAR VALUE OF BONDS—The consolidated 4s are $50, $100, $500 and $1,000; the consolidated 6s, $1,000 each. The prison bonds are for $500 and $1,000 each. The bonds of 1903 are for $500 and $1,000 each.

INTEREST on the consolidated 4s and 6s and South Dakota judgment and Schafer bonds is payable in New York at the National Park Bank and in Raleigh.

TOTAL DEBT RECOGNIZED AND TOTAL ADJUSTED.—The recognized fundable debt which has been funded and the recognized fundable debt which had not been funded January 1, 1907, are as follows:

	Funded.	Not Funded.
Consols 6 per cent	$ 2,720,000	$ 22,000
Consols 4 per cent	3,411,450	163,120

To the foregoing we should add the further fact that the State does not have to raise money for the interest on the 6 per cent bonds for the reason that the lease of the North Carolina R. R. provides a fund for the payment of the interest thereon, and the State holds three millions (par value) in the stock of the road, which if sold would much more than pay the principal. In addition the State holds other stocks and bonds valued at $1,323,750.

ASSESSED VALUATION.—The State's assessed valuation prior to 1903, was made on the basis of about 2-3 of the cash value; in 1903, however, the attempt was to assess at true value, which accounts for the large increase in that year.

Years.	Real Estate.	Personal.	Railroads, etc.	Total.
1906	$233,438,178	$159,985,543	$95,238,877	$488,662,598

Civil Government of North Carolina and the United States by W. J. Peele, . . 60c

This book is fundamental; it deals with first principles and goes to the bottom of things. It has evidently come from a mind full and overflowing with knowledge of governmental principles, and has been inspired by a lofty spirit of patriotism and humanitarianism. The book is not partisan or sectional, but broad-minded, catholic, practical, Anglo-Saxon. It ought to be read by every citizen of the United States, and studied thoroughly by every schoolboy—President George T. Winston, College of Agriculture and Mechanical Arts, Raleigh, N. C.

North Carolina Climate.

The climate of North Carolina varies from the mild and equable climate of the seacoast to that of the mountain district where the changes are more pronounced.

On account of the great diversity of the topography the temperature and precipitation data are best exhibited for the different natural divisions of the State; the Eastern Division or the coastal plain, the Central or the Piedmont Plateau, and the Western or the mountain districts.

The following table shows the mean temperatures for the months, seasons, and year, for the different districts and for the State:

The mean temperature for the State during the past thirty-two years varied from 57 degrees in 1872 to 61 degrees in 1890, the warmest year on record. The highest temperature on record is 107 degrees which occurred at Kitty Hawk, Weldon and Chapel Hill; the lowest was 19 degrees below zero at Highlands.

The precipitation is very evenly distributed, but is somewhat heavier in the Western and Eastern districts than in the Central district. In the Western district there is an area on the south and southeastern slope of the Blue Ridge Mountains where the rainfall averages between 70 and 80 inches a year; and in individual years, the rainfall measured as high as 100 inches.

Snowfall is not very important even in the mountain districts, the average for the State being about 8 inches.

Greatest Altitude.

The greatest altitude in North Carolina is Mount Mitchell, at a height of 6,711 feet above sea level.

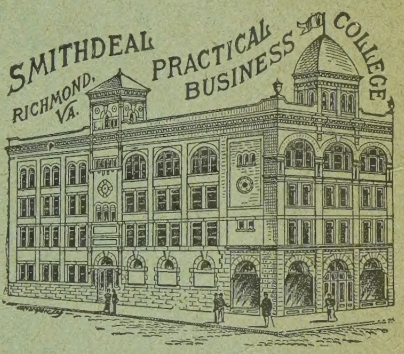
PAPER

SMITHDEAL is the oldest Business College in Virginia, and first to erect a building of its own—one of the finest in Richmond. By refusing to resort to exaggerated claims and improper promises to get students, it has forged to the front among schools of its kind. "Knowing that you have conducted for many years the leading Business College of the South, we determined to write to you, in order to secure your services." —J. A. Buell, Pres't Bus. Section, Minnesota Educational Association. "The leading Business College south of the Potomac river."—Philadelphia Stenographer. "When I reached Richmond I inquired of several business men for the best Business College in the city, and without exception they all recommended SMITHDEAL'S as the best."—Wm. E. Ross, Law Stenographer and Lawyer, Bluefield, W. Va.



G. M. SMITHDEAL, President.

"Increase Your Cotton Yields Per Acre"

Thousands of cotton planters have done so by using VIRGINIA-CAROLINA FERTILIZERS, and hundreds of them tell about it in our 1907 almanac. Deep preparation, and liberal use (400 to 1000 pounds) of

Virginia-Carolina Fertilizers

per acre, concentrated on few acres, thoroughly cultivated, enables the tap roots to strike down deep to reach the moisture, and the feeding roots to take complete possession of the soil early in the season. Your plant will then be so strong, robust and healthy, that it fruits heavier, matures earlier, opens earlier, and can be gathered earlier to better advantage, and in better order—thus insuring best results in marketing as well as obtain the largest yield per acre.

Accept no substitute for Virginia-Carolina Fertilizers. Ask your dealer or write us for one of our new almanacs, valued at $1.00, but free to you.
